

THE IITC LEADERSHIP TEAM

Dennis Powell, CEO

Dennis Powell (Denny as he is known by most) has an extensive background as an NSA civilian that spans almost 30 years.

After serving two tours in the United States Air Force, he left the military to pursue a career with NSA. He served in a wide variety of technical and managerial positions, including managing the Information Technology Division responsible for engineering and development for NSA corporate WAN and LANs.

Patti Powell, Owner/Vice President

Married in 1973, Dennis and Patti set out for a life adventure together. After retiring from Tower Federal Credit Union as a loan officer in 2002, she and Dennis decided to leverage their background at NSA to establish Island Information Technology Consultants (IITC).

With Patti’s previous education and work experience she was able to take on many roles and responsibilities, she implemented/established Human Resources & Benefits, Contracts, Security, Accounting, and Payroll. Patti is an integral part in growing this company and currently serves as the Senior Office and Human Resource Administrator and Security CSSO.

Patti takes great pride in supporting everybody in the IITC family and believes in the “one call fixes all” philosophy. Over the years she learned a great deal about this business contracting world and applies this knowledge to her customer service and security responsibilities.

Patti enjoys gardening and fishing with her family and grandchildren. Much of her time is occupied keeping Dennis straight (not).

Matt Vorsteg, Director

Born and raised in Laurel, MD, Matt studied engineering at the University of Maryland. After graduation, he joined the National Security Agency as a network engineer. Eager to support the Cold War effort, he designed and deployed many telecommunication systems throughout Europe, Asia, the Middle East, and Central

America. He later moved into management in the Network Implementation and Architecture organizations.
